The Reuter Bausch Art Gallery was founded in 2021 by Julie Reuter and Lou Bausch. The contemporary art gallery, located in the city center of Luxembourg, focuses on local and international artists. The program promises a dialogue between generations: established artists, mid-career artists, and young emerging artists.

By creating synergies between the Luxembourgish and international art scene our ambition is to participate in different European art fairs. The aim of our participation is mainly to establish lasting contacts with art institutions, curators, international collectors, the press and other galleries.
