To : 22 November 2025

Opening date : 23 October 2025

INTRODUCTION :

This duo show brings together the introspective practices of Luxembourg-based artists Julie Wagener and Arny Schmit, who explore themes of alienation, transformation, and our place in a rapidly shifting world. Wagener delves into the fragility of the human psyche, presenting fragmented, emotionally charged figures that reflect mental health struggles and societal pressure.

Schmit, in contrast, looks to Nature — his paintings blend organic and geometric forms, evoking post-human landscapes where silence speaks volumes.

Together, their works invite us to reflect on disconnection — personal, social, and ecological — and the quiet, unsettling possibilities of stepping outside the systems that define us.
